Basis of determination of the Revised Annual Caps

The above Revised Annual Caps of the GL Purchase Transactions have been determined by reference to:

- (a) the aggregate transaction amounts of approximately RMB14.6 million under the GL Purchase Transactions during the three months ended 31 March 2017, which represents approximately 91.2% of Annual Caps of GL Purchases Transactions for the year ending 31 December 2017;
- (b) the estimated increase in the volume of automotive components to be sourced from Guangling by Wuling Industrial Group, primarily the automotive front-floors components under the GL Purchase Transactions. Wuling Industrial and Guangling estimated that the target volume of these specific automotive components will be increased from approximately 208,000 units, 222,000 units and 222,000 units to approximately 286,000 units, 402,000 units and 322,000 units for the three years ending 31 December 2019 respectively;

- (c) the inclusion of the purchases of a specific automotive component to be sourced from Guangling by Wuling Industrial Group which was not covered in the original plan for the estimation of GL Purchase Transactions between the parties for the three years ending 31 December 2019 under the Supplemental Agreement. Due to change in the production plan, the main automotive component, namely, the car roof components, sourced from Guangling by Wuling Industrial Group under the GL Purchase Transactions for the year ended 31 December 2016 will continue to be sourced from Guangling for the production facilities of Wuling Industrial Group in Liuzhou in serving this particular needs of SGMW, which amounts are estimated to be approximately RMB20.5 million, RMB16.4 million and RMB10.3 million (consists of estimated quantities of 200,000 units, 160,000 units and 100,000 units respectively) for the years ending 31 December 2017, 2018 and 2019 respectively;
- (d) as a result of the increase in volume of transactions with Guangling, the corresponding mould parts and scarp materials to be sourced from Guangling by Wuling Industrial Group will be increased accordingly, which amounts are estimated to be approximately RMB14.2 million, RMB17.7 million and RMB24.7 million for the years ending 31 December 2017, 2018 and 2019 respectively; and
- (e) a buffer of approximately 5% for each of the three years ending 31 December 2017, 2018 and 2019 are adopted to cater for any unforeseeable circumstance, in particular market fluctuations, changes in government policies on automobile industry, fluctuations in raw material costs and increase in labour costs.

Besides, the Revised Annual Caps of the Baomali Purchase Transactions have been determined by reference to:

- (a) the aggregate transaction amounts of approximately RMB2.4 million under the Baomali Purchase Transactions during the three months ended 31 March 2017, which represents approximately 50.3% of Annual Caps of GL Purchases Transactions for the year ending 31 December 2017;
- (b) the revised target production volume and the new type of products (which primarily consists of 4 new types of assembled air-conditioner units) to be supplied by Baomali to Wuling Industrial Group for each of the three years ending 31 December 2017, 2018 and 2019 based on the current estimation between Wuling Industrial Group and Guangxi Automobile Group; and
- (c) a buffer of approximately 5% for each of the three years ending 31 December 2017, 2018 and 2019 are adopted to cater for any unforeseeable circumstance, in particular market fluctuations, changes in government policies on automobile industry, fluctuations in raw material costs and increase in labour costs.

Rescission of the revisions of the Annual Caps of GB Purchase Transactions under the Supplemental Agreement

Wuling Industrial reviewed the business plan in relation to the GB Trading Transactions subsequent to the execution of the Supplemental Agreement and decided to rescind the revisions of the Annual Caps of GB Purchase Transactions under the Supplemental Agreement. Accordingly, the Annual Caps of GB Purchase Transactions will remain at

RMB575,000,000, RMB750,000,000 and RMB850,000,000 respectively for each of the three years ending 31 December 2017, 2018 and 2019, which were approved by the Independent Shareholders at the special general meeting of the Company held on 6 January 2017.

INFORMATION ON THE GROUP

The Group, including Wuling Industrial Group, is principally engaged in the manufacturing and trading of engines and parts, automotive components and accessories, specialized vehicles, as well as the trading of raw materials, water and power supply services in the PRC.

INFORMATION ON GUANGXI AUTOMOBILE

Guangxi Automobile, through its direct and indirect wholly owned subsidiaries, is interested in 1,028,846,806 Shares, representing approximately 56.04% of the total number of Shares in issue of the Company, and is the ultimate controlling Shareholder of the Company as at the date of this announcement. Guangxi Automobile is currently a state-controlled company established in the PRC with the State-owned Assets Supervision and Administration Commission of the People's Government of Guangxi Zhuang Autonomous Region (廣西壯族自治區人民政府國有資產監督管理委員會), being the registered shareholder empowered by the People's Government of Guangxi Zhuang Autonomous Region (廣西壯族自治區人民政府). Guangxi Automobile, together with its subsidiaries, including the Group, is mainly engaged in the trading, manufacturing and design of (i) various types of vehicles, primarily passenger coaches and mini-buses, automotive components and accessories; (ii) various types of machinery, moulds and tools for production of automobiles, engines, and other relevant parts; (iii) the provision of related services, including the technical advisory, information, production, after sales services and the supply of power and water services, etc, in relation to the aforementioned products and equipment; and (iv) rental of property and other related services.

REASONS FOR AND BENEFITS OF ENTERING INTO THE SECOND SUPPLEMENTAL AGREEMENT

GL Purchase Transaction

The revision of the GL Purchase Transactions under the Second Supplemental Agreement is due to following reasons:

- (1) As disclosed in the annual report of the Company for the year ended 31 December 2016, SGMW is the major customer of Wuling Industrial, the principal operating subsidiary of the Group in the business divisions of (1) engines and related parts and (2) automotive components and other industrial services. As such, Wuling Industrial Group, being the direct and indirect manufacturers of automotive components for SGMW, is always required to review and adjust their production plans frequently to meet with the specific requests and demands of SGMW, which needs to respond to changing market and business environment.

With the change in the demand of SGMW, it has impact on Wuling Industrial Group when procuring certain parts and components from Guangling.

Guangling has been familiar with the standards and specifications and therefore it has been able to respond quickly and in a cost efficient manner to any new requirement from Wuling Industrial Group.

- (2) Since the beginning of the year 2017, the market price of steels has been increased by more than 30% as compared to the corresponding period of 2016. Therefore, it is reasonable for both parties to re-formulate original plans by adjusting the selling price of the automotive components, mould parts and other related products supplied by Guangling.

Baomali Purchase Transactions

As one of the Wuling Industrial's major supplier, Baomali has been supplying automotive air-conditioners-related parts and accessories to Wuling Industrial for many years. Therefore Baomali has (i) been familiar with the standards and specifications of Wuling Industrial Group; and (ii) been able to respond to any requirement from Wuling Industrial Group in an effective way.

Due to an increase in the applications of the air-conditioners-related parts and accessories in the production of specialized vehicles by Wuling Industrial Group, Wuling Industrial and Baomali have recently revised the target production volume and included new type of products (which primarily consists of 4 new types of assembled air-conditioner units) under the Baomali Purchase Transactions for each of the three years ending 31 December 2017, 2018 and 2019 in order to meeting the production needs of Wuling Industrial.

In view of the above, the Directors (excluding the Directors who have abstained from voting in this regard, and the independent non-executive Directors who will express their views after receiving advice from the Independent Financial Adviser) are of the view that the terms of the Second Supplemental Agreement and the Revised Annual Caps with respect to the GL Purchase Transactions, Baomali Purchase Transactions and the aggregate Purchase Transactions are on an arm's length basis and on normal commercial terms and are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

LISTING RULES IMPLICATIONS

As at the date of this announcement, Guangxi Automobile, through its direct and indirect wholly owned subsidiaries, is interested in approximately 56.04% of the total number of Shares in issue of the Company, and is the ultimate controlling Shareholder of the Company. The Purchase Transactions contemplated under the 2017–2019 Master Agreement as amended by the Second Supplemental Agreement constitute continuing connected transactions for the Company under Chapter 14A of the Listing Rules.

As the highest of the applicable percentage ratios for the aggregate Purchase Transactions contemplated under the Second Supplemental Agreement, on an annual basis, is higher than 5% and the annual consideration is more than HK\$10 million, such transactions constitute continuing connected transactions for the Company and are subject to the reporting, announcement, annual review and independent shareholders' approval requirements under Chapter 14A of the Listing Rules.

Save as disclosed above, no other Director is regarded having a material interest in the Continuing Connected Transactions and required to abstain from voting on the board resolution to approve the Supplemental Agreement and Revised Annual Caps.

The Independent Board Committee (which consists all of independent non-executive Directors) has been established to advise the Independent Shareholders the terms of the Second Supplemental Agreement, and the Revised Annual Caps with respect to the aggregate Purchase Transactions, and to advise the Independent Shareholders on how to vote, taking into account the recommendations on the same to be given by the Independent Financial Adviser.
