**SUPPLEMENTAL ANNOUNCEMENT  
IN RESPECT OF  
ACQUISITION FRAMEWORK AGREEMENT**

Reference is made to the announcement (the “**Announcement**”) of Kiu Hung International Holdings Limited (the “**Company**”) dated 4 November 2020, in relation to the entering into of the Acquisition Framework Agreement in relation to the Possible Acquisition. Capitalised terms used herein shall have the same meanings as those defined in the Announcement unless otherwise specified.

**SUPPLEMENTAL INFORMATION OF THE VENDOR AND THE TARGET COMPANY**

Ms. Zhang Li (as the Vendor) is the holder of a bachelor’s degree in economics from School of Economics of Peking University, and is specialized in molecular virology at National Institute for Viral Disease Control and Prevention, China CDC. Currently, she is the legal person of Target Company.

The Target Company is a company incorporated in the People’s Republic of China with limited liability on 16 October 2017, and is principally engaged in technology development and technical services in the field of biomedical technology, as well as investments in and establishment of pharmaceutical projects and other industries.

The Target Company aims to operate and create a biotechnology collaborative innovation base with influence at home and abroad, which integrates the transformation of achievements, project incubation, scientific research, and talent exchange through a biotechnology collaborative innovation center. For the purpose of providing one-stop technological services to the government and enterprises, the Target Company pursues the mission to carry out applied science research and product development in the fields of genetic engineering, cell engineering, protein engineering and diagnostics, polymer materials, and public hygiene, to incubate and cultivate outstanding technology projects, and accelerate the development of the industry by fully tapping to its advantages over scientific and technological resources and the technological innovation advantages of the Guangdong-

Hong Kong-Macao Greater Bay Area, as well as attracting outstanding talents at home and abroad. The Target Company's product line will be primarily comprised of those under National Class I New Drugs in China.

Set forth below is a summary of the team members of the Target Company:

| Full Name            | Position/<br>Academic Status | Achievements and Honors  | Responsibility            |
|----------------------|------------------------------|--|---------------------------|
| Pan Wei<br>(潘衛)      | Professor                    | Besides being a professor and a doctoral supervisor, he is the director at the Department of Pathogenic Biology of The Second Military Medical University. (The Second Military Medical University). He is also a deputy chairman of the Interferon Professional Committee of the Chinese Society of Microbiology. Furthermore, he is a member and secretary general of the Standing Medical Virus Professional Committee of the Chinese Medical Association.  | Biostructure research     |
| Yuelong Shu<br>(舒躍龍) | Researcher                   | He is a researcher, and serves as currently the deputy director of the National Institute for Viral Disease Control and Prevention, China CDC. Besides being the director of the Chinese National Influenza Center, he concurrently serves as a member of the Asia-Pacific Advisory Committee on Influenza and an expert in the influenza prevention and control expert panel under the Ministry of Health. Furthermore, he is the director of School of Basic Medical Sciences, Sun Yat-sen University. | Technical Instructions    |
| Zheng Lishu<br>(鄭麗舒) | Doctor                       | She is a doctor and researcher, and serves as the master's degree supervisor at the National Institute for Viral Disease Control and Prevention, China CDC. Currently, she is the technology expert at Shenzhen Liyunde Bio-technology Company Limited.  | Pharmacodynamics Research |

He was a lecturer in the Department of Cell Biology at Capital Medical University. He was a post-doctoral researcher in the Department of Medicine at the University of Texas in the United States as an exchange visiting scholar in 2000. Since 2001, he has been serving as a registered manager in a genetic pharmaceutical company.</p> | Registration system                |

| <b>Full Name</b>    | <b>Position/<br/>Academic Status</b> | <b>Achievements and Honors</b>  | <b>Responsibility</b> |
|---------------------|--------------------------------------|---|-----------------------|
| Zhou Minyi<br>(周敏毅) | Master                               | He graduated from Beijing University of Chemical Technology with a master's degree, and had been engaged in technology research for 8 years in a genetic drug company in Beijing. He is a patent technology lawyer and has applied for more than 40 domestic and foreign invention patents, with over 100 patent applications in total. | Technical patent      |

Set forth below are the existing patents of the Target Company:

Patent 1: a novel interferon  $\alpha$  and its preparation method, composition and use

Patentee: the Target Company

Patent number: ZL-2018-1-1437104.3

Application date: 28 November 2018

Patent 2: a novel interferon  $\alpha 1$  and its preparation method, composition and use

Patentee: the Target Company

Patent number: ZL-2018-1-1437107.7

Application date: 28 November 2018

As indicated by the preliminary valuation report obtained by the Company from the independent professional valuer, the valuation of the Target Company is not less than HK\$100 million.

The above information is supplemental to information as contained in the Announcement.

By Order of the Board  
**Kiu Hung International Holdings Limited**  
**Zhang Qijun**  
*Chairman*

Hong Kong, 11 November 2020
